

Tuberculin Skin Testing Protocol for 2009-2010 School Year

All students entering school for the first time must have **one** of the following:

- a) a past Tuberculin Skin Test with validated reading on record or
- b) a completed Tuberculosis Screening Form. The school nurse or health care professionals may require a Tuberculin Skin Test depending on answers on the Screening Form. Persons with high risk conditions or symptoms are at the highest risk of developing TB.

All academic instructors upon employment must have **one** of the following:

- a) a past Tuberculin Skin Test with validated reading on record or
- b) a completed Tuberculosis Screening Form. The school nurse or health care professionals may require a Tuberculin Skin Test depending on answers on the Screening Form. Persons with high risk conditions or symptoms are at the highest risk of developing TB.

The Tuberculin Skin Test shall be required for all school nurses and nursing assistants on an annual basis.
