

Attention Parents:

For the 2009-2010 school year, the Comal County Health Department is requesting that parents call their child's school (main campus phone number) when their child is out of school with any of these flu like symptoms:

Fever greater than 100 degrees	Cough
Body aches/chills	Sore throat

The Comal County Health Department is monitoring flu-like symptoms in all of our schools to be able to quickly determine if a flu outbreak is occurring and to promptly plan accordingly. Your cooperation in this flu surveillance is greatly appreciated!
