Comal ISD students enjoy SVHS pool this summer

Students in Comal ISD's School Age Child Care (SACC) summer program continue to have a cool time this summer.

The more than 450 students in the program have been swimming two hours per day twice a week at the Smithson Valley High pool, which opened last school year.

"We have the whole pool to ourselves, and we get to spend more time here than we did when we used the pool at Landa Park," said Ana Herrera, one of the program's senior associates. "The kids really seem to be enjoying themselves."

Student Kaitlyn Rivas said her fellow program attendees definitely look forward to their time at the SVHS pool.

"We have a chance to have fun in the summer without being scorching hot," Rivas said. "We get to play a lot of games and be with our friends, which is great."

The SACC summer program will conclude on Aug. 13, but not before a carnival is held on Aug. 11 at Johnson Ranch Elementary. It will include a dunking booth, clowns, games and a bungee run.
