Vernon appointed **Director of Maintenance & Operations**

Greg Vernon, the director of Facilities for Grand Prairie ISD since 2004, is Comal ISD's new director of Maintenance and Operations starting June 16. He replaces Guillermo Nieri who accepted a position with Texas State University in San Marcos earlier this year.

"We are excited to have Greg join our M&O team," said Thomas Bloxham, assistant superintendent for Support Services. "He brings a wealth of facility management experience in public schools and we look forward to his leadership."

Prior to Grand Prairie ISD, Vernon worked for Birdville ISD for 15 years and left as that district's assistant director of Buildings and Grounds. His bachelor's degree in communications is from Oklahoma Baptist University in Shawnee, Okla.

Vernon will oversee the district's Maintenance and Operations team that is responsible for custodial services, grounds keeping, facility maintenance and repairs, and light construction.
