

## **MESSAGE FROM LYNDON LANGFORD, PRINCIPAL:**

Goodwin Frazier Elementary School renovations are nearing completion. The construction has been hampered due to the heavy rainfall but it appears the building will be ready when school starts. The changes are not only improving appearances but will affect instruction in a positive way for all students. Your tax dollars have been well spent and will be put to good use.

Students and parents are invited to come by the new Goodwin Frazier Elementary School to see all of the wonderful improvements and to visit with me and Sue Ann Reininger, assistant principal, between 9 a.m. and 4 p.m. on August 15, 16, and 17.

If inclement weather prevents the opening of the school on these days we would still like for you to come by the old Goodwin Primary School building to meet with us and share thoughts about the coming school year.
