I understand the choice sheet and 4 year plan are part of my child's personal graduation plan. My goal for my child is that he/she will graduate with his/her class, pass the required TAKS test each year, and pass all courses during the academic school year. I am aware that tutorials are offered daily for academic assistance and that TAKS remediation classes are required for any student who fails a portion of the exit level TAKS test. My signature below indicates I have discussed these goals with my child and I agree with the choices my child has made.
