

THE STATE OF TEXAS IMMUNIZATION LAWS: (Requirements for attending Texas Schools)

- (A) Polio – At least three doses of oral polio vaccine are required, with at least one dose received after the fourth birthday.
- (B) Tetanus/Diphtheria – At least four doses of DPT and or/Td vaccines are required with at least one dose received after the fourth birthday. 1 dose of Tdap is required 10 years after the last dose of DTP, DTaP or DT.
- (C) Measles, Mumps, Rubella (MMR) – Two doses are required with the first on or after first birthday.
- (D) Hepatitis B – Three doses are required.
- (E) Varicella – One dose of varicella vaccine received on or after the first birthday is required. Two doses vaccine given if 13 years or older
- (F) Comal County & Comal ISD Tuberculosis Skin Testing Policy – All students are required to have a Tuberculin Skin Test with validated results or a Tuberculosis Screening Form on file. The school nurse or other healthcare professional may require a Tb SkinTest depending on answers on the screening form.

EMERGENCIES

It is the parent's responsibility to provide the school with phone number changes and emergency contacts as they occur. It is imperative that we have numbers where we can reach a parent or someone who can act in his/her behalf should an emergency arise. If a child's illness or injury has the potential for being life threatening, we will call the appropriate EMS unit for treatment or transfer to a medical facility. The parent will be responsible for any and all charges. Every effort will be made to reach the parent.

Clinics are staffed full time with nurses and nursing assistants that are certified in CPR.
